

# WHITE & BLUE

THE OFFICIAL STUDENT PUBLICATION OF SAINT LOUIS UNIVERSITY

November 13, 2023

**CECILIA A. MERCADO, Ph.D.**

Acting TMDD Director/Data Protection Officer  
Saint Louis University

## **RE: REQUEST FOR INTERNET CONNECTIVITY IN WHITE & BLUE OFFICE**

Dear Dr. Mercado:

Greetings!

The usage of the internet is undoubtedly a need, especially in communicating relevant information to the masses. However, even with the upscaling information technology systems, one of the struggles of White & Blue is having a poor data connection, especially during coverages.

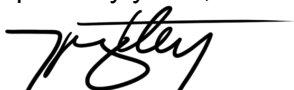

In line with this, White & Blue requests for an internet connection at its office located at Silang Basement. This will help the organization disseminate information in a more efficient way to work for the benefit of the Saint Louis University student body in its capacity as a student publication, anchored from the organization's objectives.

Rest assured that the internet connection will be used for organizational purposes only. Attached in this document are the guidelines and provisions regarding the use of the Internet.

Looking forward to your immediate and positive response.

Thank you so much!

Respectfully yours,

  
**JULES PHILIP G. TILLAY**  
Faculty Adviser, White & Blue  
Saint Louis University
